Organizer : The Indian Concrete Institute (ICI), J&K Centre

Event Date : 10th May 2024

Venue : Lecture Hall 3

Faculty Present : Dr. Fayaz Ahmad Sofi, Dr. Parmeshwar, Prof. Bashir Ahmed Mir

ICI Representative : Mr. Asrar

Event Day

Dr. Mir Faizan Ul Haq an esteemed Assistant Professor from the Civil Engineering Department at the Indian Institute of Technology Jammu served as the keynote speaker. Dr. Faizan's comprehensive presentation covered a range of topics including the mechanisms, examples, types, and tests associated with seismic isolation and a notable mention of its implementation by the Kairos Power Company. The seminar witnessed active participation from both students and faculty members of the Civil Engineering department at NIT Srinagar who engaged in vibrant discussions, posing thought-provoking questions and seeking clarifications on various aspects of the subject matter. As a token of appreciation for his invaluable contribution, Professor B.A Mir honored Dr. Faizan with a memento, symbolizing gratitude on behalf of the institution. The event was gracefully concluded with a gratitude talk delivered by CESA President Hyder Mushtaq expressing gratitude to all attendees and organizers for their unwavering support and commitment to academic excellence.
